Revision Code: <b>A-2</b>		Drafted	Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: See data provided on stream number 282-2003

Stream mouth: 55° 06' 42.6" or 55.111836° and 159° 59' 17.9" or -159.988296°

Upper Salmon Limit: 55° 06' 26.1" or 55.107261° and 159° 58' 59.9" or -159.983299°

Section = 36 Town = **57 S** Range = 70 W S.M.
